

# 7-1-7 Bottleneck Categorization and Longer-Term Planning activity

## Scenario set #1

### Instructions

In your group...

- Read through the following scenario.
- Review the '7-1-7 Bottleneck Categories' guidance.
- What bottleneck category is represented by the scenario below?
- On a flipchart or other designated area, please:
  - Identify longer-term action(s) to address the bottleneck
  - Brainstorm a plan for inclusion in national planning and/or funding opportunities
  - Brainstorm a plan for advocacy, as needed

### Scenario

Arcturia completed a retrospective review of 13 outbreaks. Across outbreaks, they discovered that the doctors in the most rural parts of the country rarely tested for Hepatitis A. In most cases, the providers prescribed a course of treatment consistent with rotavirus, which is very common in the rural areas of Arcturia.
